Accommodation Providers

If you run a hotel or B&B or offer rooms to rent, make sure your business is listed on the Visit Cheltenham website. You should also make sure your website highlights local cycle routes /events along with images and information about attractions accessible to cyclists

• that cyclists will be catered for by emphasising the facilities/ services available for cyclists at your premises – think bike storage, washing facilities etc.
• put your business in front of potential visitors by sharing Festival updates on social media and using official hashtags
• get your business accredited with one of the national welcome schemes i.e. cyclists and walkers welcome.

Restaurants, Bars & Cafes

Cheltenham is known as the foodie centre of the Cotswolds. The Festival presents the perfect opportunity to showcase the very best of food and drink that Cheltenham has to offer and live up to our well-earned reputation. Consider Cycling and Tour of Britain themed products, stock up with local delicacies and promote special on-the-day deals that spectators can take advantage of.

Don’t forget to keep checking our website for information on road closures and times, and any access changes. Food and drink businesses may need to consider adapting their opening, closing and food service hours around the event to help make the most of the opportunity.
Don’t forget, if you have television facilities, you can also promote live coverage of the event!
Practical Information

Although your business can benefit from the many spectators of the event, it is important to be aware of how it may affect your usual business, especially if you are located close to the route. Here are some things to consider:

- If access is limited at certain time of the day you will need to think about how your employees and customers will get in and out of the building.
- You may need to adjust your opening and closing hours.
- You may need extra staff to cope with the large number of spectators.

Keep up to date

It’s important that you stay in the loop so you can update your staff and customers about the Tour of Britain. We will be posting frequent updates on www.cheltenhamcyclingfestival.org.uk, subscribe to the page to receive emails – that way you can make sure you don’t miss anything.

The Cheltenham Festival of Cycling is not just about the event on September 9th; we are also thinking hard about legacy planning focused around key themes of inclusivity, wellbeing, connectivity and infrastructure.
